PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years building responsive web applications using React.js, Node.js, and MySQL. Experience spans front-end interfaces and backend API systems, delivering platforms that handle real user traffic and integrate third-party services. Nationally recognized by Egypt's Ministry of Education for assistive technology innovation. Focused on writing clean code and creating systems that actually work in production.

EDUCATION

Delta Technological University – Faculty of Industry and Energy

Bachelor's Degree (Expected Jun 2030) | Sadat City, Menoufia | Sep 2026 – Present

WE School for Applied Technology – Programming Department

Diploma | Mansoura/Dakahlia / 2022 – 2025

EXPERIENCE

MsarWeb – Front-End Developer Intern

Menouf, Menofia, Egypt | Jul 2024 – Sep 2024

- Built company website from scratch in 4 weeks using HTML, CSS, and JavaScript under tight deadlines.
- Optimized page load times and fixed cross-browser rendering issues that were breaking the layout on Safari.

Freelance Full-Stack Developer

2024 – Present

- Delivered custom web solutions for individual and business clients using React.js, Node.js, and MySQL.
- Built responsive interfaces and backend REST APIs based on client requirements.
- Managed end-to-end project development from initial concept to deployment, including UI implementation, API integration, and database design.

PROJECTS

EnglishTaxo – Full-Stack Educational Platform

React.js • Node.js • Express.js • MySQL | Dec 2025 – Mar 2026

- Built learning management system for English institute managing 500+ student records and 20+ courses.
- Created student dashboard with progress tracking and course analytics, plus admin panel for content management.
- Built RESTful API with JWT authentication and OTP verification for secure access.
- Deployed on Hostinger with custom domain, maintaining 99.9% uptime since launch.

Reflecto – Car Detailing Service Backend

Node.js • Express.js • MySQL | Mar 2026 – Apr 2026

- Built backend API for a Saudi-based luxury car detailing company, covering customer accounts, bookings, and service tracking across 10+ relational MySQL tables.
- Implemented secure OTP authentication via Twilio with Redis-backed session handling, plus JWT-based auth for protected endpoints.
- Integrated Tabby and Tamara Buy Now Pay Later gateways to give customers flexible payment options at checkout.
- Designed a loyalty points system tied to service spend, and warranty document tracking with file storage on AWS S3.
- Added an admin dashboard with activity logging for monitoring bookings, customers, and service history.

Islamic Platform – Quran and Hadith Web App

React.js • REST APIs | Jun 2025 – Jul 2025

- Built Islamic resource platform with Quran reading, verse-by-verse audio from 10+ reciters, and tafsir in multiple languages.
- Added Hadith collections, daily prayers, and Islamic knowledge quizzes to keep users engaged.
- Integrated multiple REST APIs for dynamic content, built responsive UI across all modules.

Leaf Doctor – AI Plant Disease Diagnosis

React.js • Node.js • Express.js • TensorFlow.js | Dec 2025 – Feb 2026

- Built AI tool that identifies plant diseases from leaf photos, provides diagnosis confidence scores, and recommends treatments.
- Used TensorFlow.js for image classification, Express.js backend for processing, and React frontend with offline support.
- Helps farmers get fast diagnosis instead of waiting days for expert consultation.

Shawer – Sign Language Translator (In Development)

React.js • PHP • Python | Jun 2025 – Oct 2025

- Building a web platform that converts text to Egyptian sign language videos using dynamic video stitching and optimized rendering for smooth playback.
- Recognized and honored by Egypt's Ministry of Education for assistive technology innovation.
- Presented at Edu Tec Exhibition 2025, reached over 10,000 attendees.
- Won SCTE 2025 National Competition for educational technology.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, UI/UX Design

Backend Development: Node.js, Express.js, REST APIs, MySQL

Additional Skills: Python, PHP, Git, GitHub, TensorFlow.js

Soft Skills: Problem Solving, Communication, Time Management

CERTIFICATIONS

- HTML & CSS Fundamentals – MaharahTech, 2023
- JS Fundamentals – MaharahTech, 2026
- Python Programming – MaharahTech, 2023
- Digitopia National Tech Competition – MCIT Egypt, 2025
- SCTE 2025
- BTEC (Pearson), 2025

ACHIEVEMENTS

- Won SCTE 2025 Competition and received recognition from Egypt's Ministry of Education for the Shawer project
- Presented 'Shawer' at Edu Tec Exhibition 2025, recognized for innovation in educational technology
- Participant in Digitopia 2025 National Tech Competition by MCIT Egypt for SchoolConnect project
