YOUSSEF ABBAS

Front-End Developer

Shebin El-Kum, Menofia, Egypt • +20 1027295412 • youssefabbas722@gmail.com

Portfolio: youssef-abbas-portofolio.vercel.app • GitHub: github.com/YoussefAbbas12

PROFESSIONAL SUMMARY

Front-End Developer with 3+ years building responsive web applications using React.js and modern JavaScript. Experience spans full-stack development with Node.js and MySQL, delivering platforms that handle real user traffic. Nationally recognized by Egypt's Ministry of Education for assistive technology innovation. Focused on writing clean code and creating interfaces people actually want to use.

EDUCATION

Delta Technological University – Faculty of Industry and Energy

Bachelor's Degree | Sadat City, Menoufia | Sep 2026 – Jun 2030 (Expected)

WE School for Applied Technology – Programming Department

Diploma |Mansoura/Dakahlia/ 2022 – 2025

EXPERIENCE

MsarWeb – Front-End Developer Intern

Menouf, Menofia, Egypt | Jul 2024 – Sep 2024

- Built company website from scratch in 4 weeks using HTML, CSS, and JavaScript under tight deadlines.
- Optimized page load times and fixed cross-browser rendering issues that were breaking the layout on Safari.

Freelance Front-End Developer

2024 – Present

- Delivered custom web solutions for individual clients using React.js and modern JavaScript
- Built responsive interfaces and integrated REST APIs based on client requirements
- Managed end-to-end project development from initial concept to deployment, including UI implementation and API integration

PROJECTS

Shawer – Sign Language Translator

React.js • PHP • Python | Jun 2025 – Present

- Built web platform that converts text to Egyptian sign language videos using dynamic video stitching and optimized rendering for smooth playback.
- Recognized and honored by Egypt's Ministry of Education for assistive technology innovation.
- Presented at Edu Tec Exhibition 2025, reached over 10,000 attendees.
- Won SCTE 2025 National Competition for educational technology.

EnglishTaxo – Full-Stack Educational Platform

React.js • Node.js • Express.js • MySQL | Dec 2025 – Mar 2026

- Built learning management system for English institute managing 500+ student records and 20+ courses.

- Created student dashboard with progress tracking and course analytics, plus admin panel for content management.
- Built RESTful API with JWT authentication and OTP verification for secure access.
- Deployed on Hostinger with custom domain, maintaining 99.9% uptime since launch.

Leaf Doctor – AI Plant Disease Diagnosis

React.js • Node.js • TensorFlow.js • Express.js | Dec 2025 – Feb 2026

- Built AI tool that identifies plant diseases from leaf photos, provides diagnosis confidence scores, and recommends treatments
- Used TensorFlow.js for image classification, Express.js backend for processing, and React frontend with offline support
- Helps farmers get fast diagnosis instead of waiting days for expert consultation
